

"Why are you a Christian?"

Text:- Jh. John 1: 42.

"And he brought him to Jesus."

Sub:-

my subject tonight is rather unusually stated. you have heard the subject, why are you not a Christian? but have you ever heard this why are you a Christian. I want to deal tonight with this matter from two angles. discussing first the remote and the immediate influences which led you to Christ. I am wondering whether we sometimes do not place too much emphasis upon and glorify too much the immediate influences which had people to Christ, and forget those influences which were brought to bear in our life long before the time of decision came. why are you a Christian? may we look into our lives tonight and seek to discover just why we are Christians, then having found the reasons we can seek to

set in bring to bear in the lives
of those around us like influences.
